

DESIGN FOR CONVERSION OF M/V ISLAND PATRIOT

We have been assigned a contract by Island Offshore Management AS, Ulsteinvik, Norway for the design of the conversion of the Offshore Supply Vessel M/V ISLAND PATRIOT. The design includes installation of a new accommodation module for preparation of the vessel being converted into a Well Stimulation Vessel.

The design for the conversion was performed during 2009 and the conversion was performed during January - March 2010.

We offer, among others, the following services:

- Project Management
- On-site Supervision
- Mechanical Engineering
- SOPEP plans
- Strength Calculations
- Conversion and repair specifications
- Cost Control
- Naval architects
- Noise Measurements and Calculations
- Stability and Motion Calculations
- Inclination tests and Reports
- Newbuilding design
